

INTERNATIONAL NEURAL NETWORK SOCIETY

My INNS friends and colleagues,

I'm going to announce soon a call for proposals for the DARPA's GARD program.

An early information about it is in:

https://www.fbo.gov/index?s=opportunity&mode=form&id=ef88d2693ffeb577b70ebf4b85d9094b&tab=core&_cview=0

(Yes, I know, DARPA put it online while I was abroad and butchered my name, but it's still me)

The proposer day will take place on February 6, a few days later my talk will be put online for the benefit of these who cannot make it.

I hope to see many of you assisting us in this important research direction, just like you did with the Lifelong Learning Machines (L2M) program.

And - again, I want to stress that I work for the benefit of our field and of all of us. So if there are other topics you find to be important in advancing AI/ML please feel free to contact me at hava.siegelmann@gmail.com - I'm always available to meet with you.

Best - Hava

Hava Siegelmann, Program Manager
DARPA - GARD Program
